Negotiations Most of Day

## BULLETIN

Jesse Demaree, when arraigned at 3:15 this afternoon, entered a plea of guilty on the conspiracy charge, and was sentenced to the Indiana State prison for a period of years, not less than two, nor more than 14 years. It was by agreement that if he pleaded guilty to this charge, the other charge of first degree burglary, carrying with it a sentence of from ten to twenty years, would be nollied.

Jesse Demaree, who went on trial this morning in circuit court for the robbery of the Dr. D. H. Dean home in this city, last August, entered into a contract just before noon with the state, that if he would confess all he knew, he would be given a sentence of from 2 to 14 years, instead of from 10 to 20 years.

The attorneys for the state and defense and Jesse Demaree, with the court reporter, held a consultation behind closed doors, in which Demaree is said to have confessed everything he knew concerning the different robberies that he had taken part in.

The confession obtained was not given out, but on good authority it was stated that he implicated Cary Wayne, age 22, Big Four railroad brakeman, whose home is in Elkhart, Wayne, it is said, took part in the robbery of the Sharer and Moore hardware store in Carthage.

It is reported Wayne has previously confessed and will not be prosecuted because of having provided the prosecution with evidence.

Demaree also stated that at the robbery in Carthage another member of their gang was present, and he gave his name, but it is not known which one it was.

Following the conclusion of the confession, the state wanted to go back on their contract, the attorney for Demaree said, and a controversy arose, which lasted for a long time. The Big Four railroad detectives, it is said, were opposed to allowing Demaree to escape with a light sentence, because his confession implicated one of the Big Four employees in the Carthage robbery.

The detectives were largely responsible for the rounding up of the alleged band, and they are said to object to any agreement made by the state that Demaree would get a lighter sentence if he would confess all he knew. The detectives maintain that Demaree has not told anything that is new.

It is stated that at the beginning of the confession, Demaree implicated a Rushville man, who acted as sponsor for the Dean robbery, telling the robbers that the Dean family was not at home. This information, or the man's name, was not made public.

About fifteen minutes of three the jury which had been recalled for one o'clock, was discharged, but again recalled before they left the court house. It was expected that the jury would be discharged at once, in case an agreement was reached between the state and defense, as to whether or not Demaree had told everything that he knew.

Court adjourned at 10:30 o'clock.

until one o'clock, to give Demaree time to consider a proposition that he confess to the operations of the Demaree band of robbers, of which he is alleged to be a member, and plead guilty to a charge of grand larceny.

Adjournment was taken after the jury had been selected and the opening statement had been made by Lee Tremain of the law firm of Tremain and Turner of Greensburg, who are assisting the state. Demaree is accused of robbing the residence of Dr. D. H. Dean here August 22, 1919, and conviction on the charge of first degree burglary carries with it a sentence of from ten to twenty years. It is said that when the proposition was first made to him, Demaree offered to plead guilty to the charge of grand larceny, the penalty for which is only two to fourteen years, but refused to implicate the other members of the alleged gang.

With the consent of Judge Sparks after the jury had been called back into the room, court was adjourned to allow Demaree a chance to think over the difference between two and ten years in the penitentiary.

There was not much difficulty in getting a jury, and only 40 minutes was required for this part of the trial. A special venire of several names was drawn, and several men from the regular panel were excused last night by Judge Sparks because they were needed on their farms.

After the jury had been sworn, Mr. Tremain set out facts in the case to the jury, telling them what would be proven against Demaree.

The attorney told the jury that Demaree and another man left Greensburg on a freight train on the night of August 22, 1919, and got off here, going directly to the rear of the residence of Dr. D. H. Dean, 515 North Main street.

The other man mentioned with Demaree has confessed, it is said, and the incidents related in the opening statement seemed a surprise to Demaree.

Attorney Tremain, continuing in his remarks, told the jury that this confederate was placed in the alley by the barn at the rear of the residence, with a revolver in his hand, and was told by Demaree to shoot any one that interfered with their plans.

Demaree then proceeded to the rear of the house, and knowing that there was no one at home, attempted to raise a window on the north side of the house, along the alley, but this window was securely fastened.

The attorney stated that it was early in the evening and being in August, the neighbors were sitting on their front porches. Demaree then went across the alley to the house which is being built by J. D. Case, obtained a chisel and forced up the window to the Dean house, making a loud noise, according to Mr. Tremain.

Demaree, the attorney continued, soon returned with two straw suit cases full of stolen articles, left them with his confederate, and went back into the Dean house. The next trip back he brought an imitation leather suit case stuffed full of loot.

The two men boarded a freight back to Greensburg that night, Mr. Tremain said, and threw the suit cases off into a ditch just before reaching Greensburg. When the train stopped at the north edge of Greensburg, Demaree and his accomplice went back along the train and Demaree started to break into a car, the state's attorney said.

Here T. M. Green, who was appointed to defend Demaree, objected, declaring that had no bearing on the charge on which Demaree was being tried. Mr. Tremain argued that it was for the purpose of showing the intent. The court sustained the objection and Mr. Tremain.

House Passes Resolution Calling on  
Wilson For Facts in 2 Minutes

(By United Press.)

Washington, Mar. 25.—The house today called on President Wilson for a definite statement of the exact status of the 17,000 American troops in Germany.

In two minutes it unanimously passed the resolution of Representative Kahn of California, chairman of the foreign affairs committee asking that congress be advised immediately under what conditions and by whose direction the United States forces can be used.

ALLIED INTERVENTION  
MAY BE THE RESULTTroops Will Be Sent to Ruhr District  
of Germany if Government  
Can't Restore Order

## NEW CABINET IS ANNOUNCED

(By United Press.)

Paris, Mar. 25.—Advices from the French foreign office today indicated a marked improvement in West Germany. Foreign officials regard the military crisis as passed. The disputes were largely caused by the working men's demands for higher wages and included the socialization of basis industries.

Allied military intervention in the Ruhr industrial district of Germany will follow if troops of the German government are unable to restore order there, it was learned today.

If Ebert's emissaries are unable to negotiate peace, the allies will grant permission to send as many troops in the district as President Ebert wishes, the dispatch said.

Several military troops have gone to the Rhine to follow the developments in Communist uprisings.

The district now under the control of the communists, depends upon the output of the coal supply, the dispatch added.

The new German cabinet was completed last night. The dispatch gave the new cabinet as follows: Gustav Bauer, minister of justice, Eugene Schiffer, minister of foreign affairs, Herman Mueller, minister of defense, Dr. Gessler.

WOOD IS VICTOR IN  
SOUTH DAKOTA VOTEWins Delegation to Republican National  
Convention and Democrats Favor Gerard.

## PRIMARY COUNT NEAR END

Sioax Falls, S. D., March 25.—Leonard Wood is the victor in the Republican presidential primaries in South Dakota, today's returns indicated. Precincts that have not reported can not change the final result of the election, it was believed. Wood today led Governor Lowden by more than 4,000 votes.

Senator Hiram Johnson was third in the primary contest. James W. Gerard, former United States ambassador to Germany, was the choice of the Democrats.

Primary election returns from remote and isolated districts of South Dakota were expected to arrive by mail today and provide practically a complete state vote. Returns compiled early today for Republican presidential endorsement from 1,185 of 1,740 state precincts included all but a dozen of the larger voting places in the state and gave: Wood, 27,666; Lowden, 23,385; Johnson, 21,735.

Washington, Mar. 25.—Income and excess profits taxes aggregating \$908,829,172 were paid as the first installment of the nation's tax bill for 1919.

TO PREPARE FOR  
THE NEW VOTERSCommissioners Are Anxious For Expression  
of People Regarding  
Purchase of Voting Machines.

## DEMONSTRATION ON SATURDAY

If Women Cast Ballots in Primary,  
Machines Must Be Bought or  
the Precincts Doubled.

In anticipation of the increase of the number of voters in Rush county at the primary May 4, the county commissioners are face to face with the problem of caring for the vote. With only one state needed to ratify the federal woman's suffrage amendment, there is a very strong probability that women will have the right of franchise before the primary, which means that the vote will in all probability be double that of former years.

There are now thirty-one precincts in the county, and in order to take care of the women voters, it has been found that a minimum of fifty-nine precincts would be required, with an average of from 200 to 250 votes to the precinct. That is, the precincts will have to be almost double in number providing the old system of balloting is used.

However, the commissioners have a proposition to install voting machines at a cost of \$20,000, and they have invited the citizens of Rush county to be at the court house Saturday to see a demonstration of one of the machines and express their attitude regarding such a step. The salesman for the machine says that twenty machines at \$1,000 each would meet the requirements of Rush county, and that the amount saved in the expense of election officials would pay for the machines in a few years.

In some counties, commissioners have taken the position that the new voters can be taken care of with the same old precincts, but the Rush county board does not see how that it would be possible without a great amount of inconvenience to the voters who would have to spend so much time at the polls.

It is known that the republican and democratic state committees believe that the suffrage amendment will be ratified before May 4 and are making arrangements for the women to vote. It is likely that a number of new questions will be presented in regard to the new voters and a number of the statutes will have to be interpreted so that local election officials will know exactly where they stand. No difficulty in this respect, however, is anticipated inasmuch as the custom has been followed in the past of leaving disputed points to representatives of both parties for decision. The majority of their decisions have been accepted as final by both organizations and in this way prolonged litigation is avoided.

Just as soon as the women are assured of their right to vote in the primary it is expected that the candidates from the various offices will send some representatives to the different localities in the state to speak to the women voters. In fact, a number of such meetings have already been considered in this city and whether or not they are called will depend entirely upon the date of the ratification of the woman's suffrage amendment.

## CLINE IS OUT UNDER BOND

Will Remain at Liberty Until Judgment  
is Passed on Verdict

Ora Cline, who was found guilty by a jury in circuit court yesterday afternoon on a charge of encouraging the delinquency of Gladys Smith, 19 years old, was still at liberty today under \$500 bond which he provided when the affidavit was first filed.

Cline was fined \$50 and costs and sentenced to 120 days in jail but will not begin serving his sentence until Special Judge Miller of Franklin, passes judgment on the verdict. It is said that Cline will file a motion for a new trial, and in the event that is overruled, will appeal to the supreme court.

WILL COST PEOPLE  
A HUNDRED MILLIONIncrease in Price of Coal April 1  
Necessary to Take Care of  
Advances in Wages

## WILL BE ABOUT 25 CENTS A TON

(By United Press.)

Chicago, Ill., Mar. 25.—Increased prices of coal will cost the American public more than \$100,000,000 annually when government control of fuel prices cease April 1, coal operators here today predicted.

The jump in prices April 1, according to G. W. Reed, of Chicago, will be caused by increased wages now being paid miners and to make up for the increase to be granted them.

As it is now figured, the consuming public will have to pay 25 cents more a ton than what they have are paying now.

## 25 Cents A Ton Increase

Columbus, Ohio, Mar. 25.—An increase of 35 cents a ton for soft coal is likely April 1, according to B. F. High, secretary of the Ohio, Michigan and Indiana Coal association.

He pointed out that the increase will be necessary to absorb the 27 percent increase in wages to miners, recommended in the report of President Wilson's coal commission.

SAYS WILSON SHOULD  
ANNOUNCE INTENTIONSRep. Humphreys, Democrat of Mississippi, Says President Should  
Announce He's Not Candidate

## SPEECH IN HOUSE CHEERED

(By United Press.)

Washington, Mar. 25.—President Wilson should announce immediately that he is not a candidate for a third term, Representative Humphreys of Mississippi declared in the house today.

Humphreys asserted that under no condition should Wilson consider asking for re-election and advocated passage of a constitutional amendment limiting the presidential eligibility to one term.

"I regret that the president has remained silent as to his intentions in the matter of a third term," Humphreys said, "and that he has permitted so many of his friends, including members of his cabinet, to advocate publicly his re-election. By remaining silent he has allowed this country to believe that he is willing to break the ancient precedent."

At the conclusion of Humphreys' speech both democrats and republicans arose and cheered.

The speech of Humphreys was the first democratic political attack on Wilson during this session.

## ADDITION TO PERSONAL LIST

State Tax Board Announces Dates  
For Hearings on Assessments  
of All Corporations

In addition to filing out the regular personal property assessment sheet, domestic corporations are required to make a confidential statement to the county auditor regarding their capital stock and assets and liabilities, it became known today when George Aultman, township assessor, distributed the sheets among the local corporations.

The statement is required under section 107, of the state tax law, and failure to file it makes the corporation liable to a fine of \$100 for each additional day the report is delayed.

The corporations are required to give all details regarding their stock such as the amount of common and preferred, the amount paid up and its market value; also the value of all tangible property fixed by the assessor in 1920. Other questions to be answered are the amount of dividends paid during the year, gross sales, cost of manufacture, cost of merchandise purchased, gross earnings, number of active officers and their salaries, number of employees and the amounts paid them, current expenses, federal taxes and finally net earnings.

The companies are required to show the amount of insurance carried on its property, including buildings, machinery equipment, material and supplies, merchandise, etc. Then follow a number of cross-questions which will be checked against the personal property schedule filed by the individual owning such business.

Local corporations, both public and private, are interested in the announcement that the state board of tax commissioners has set the dates when the assessments of such concerns for 1920 will be considered. The tax law provides that the state tax board shall make the original assessments on certain corporations and public utilities and when each is considered its representatives are given opportunity to be heard.

Telephone companies will be the first to be heard, April 6-13, both inclusive, having been set aside for such utilities. Express, telegraph, sleeping car, transportation and pipe line companies will be heard April 14-17, inclusive and banks, trust companies and building and loan associations will be considered April 18-23 inclusive. Electric street and interurban lines will have their hearing from April 26 to 30, inclusive and May, 3-7 has been designated as the dates for steam railroads.

Four sessions will be held by the state tax board during the year. The first session, at which corporations and utilities will be heard, it is announced, will start April 5, at 10 a. m., and will continue fifty days, ending May 24. Corporations, utilities and others which the board is authorized to assess are asked to file statements prior to the hearings. The above dates were fixed by the board for some of the larger corporations to be assessed in order to expedite the hearings.

The second session will begin Tuesday, July 6, and will continue twelve days, ending Saturday, July 17, when appeals from and applications for changes in the assessments as made in the first session will be heard.

A third session of the tax board will start at 10 a. m. Monday, July 19, and continue not later than August 16, and will be to hear appeals from the assessments and the equalization of the assessment of all property.

## Mother Love

Mother love, without regard to its quality, has been overpraised. The more protective mother instinct has been exalted in prose and verse as something high and noble, yet human experience teaches that it is as strong in animals as in women and equally fierce and unreasoning. The desire to shield one's young parts of oneself—from the consequences of their wrongdoing, for which they need to be punished for their own future good, may be as purely selfish as it is obviously blind. A notable example of this sort of harmful mother love has long been before the public. Fearing that her sons might be killed in battle, a mother not only encouraged them to become draft evaders and assisted them in their efforts to remain in hiding but since the final arrest of one of them has gone to shocking extremes in his defense, according to report even attempting to spend great sums in the purchase of perjured witnesses.

The true mother would have loved her sons' honor more than their mere flesh and blood. She would gladly have taken the risk of their honorable death in battle not only because of patriotism but because of intelligent recognition of the fact that to become hiding shirkers would deeply injure them morally as well as seriously damage their reputations. The animal mother loves only her child's body and its safety from physical harm or from temporal damage. The true mother has a watchful care for these things also, but loves most her child's permanent good as to character and will readily consent to its wholesome punishment with that end in view.

## Weary of Crime Waves

Country districts are becoming weary of the alarming crime waves that are sweeping the big cities. It creates a strong suspicion in the minds of the public that there is a state of collusion between the authorities and the criminal element which is anything but pleasant to contemplate, and has a tendency to destroy the respect in which the rural population has been reared to hold law and order and constituted authority. When noted gunmen and crooks can defy all law and decency for years and keep out of jail there is only one conclusion to which the public can come—that the prosecutors dare not prosecute and courts dare not convict. This condition is a stench to all law and order loving people, and one which would never be tolerated in a second rate country town or village.

## Will Help Fake Stocks

For many years this country has been flooded with fake or shady concerns in which stock has been sold to a gullible public, generally to the small investor who can ill afford to lose his savings. Since the supreme court has ruled that incomes from stocks are not subject to taxation it is possible that many more of these fakes will spring into existence, on the theory that the public will rush to place its surplus funds in stocks. If this be the case the people of our community should apply the acid test to any stock certificate offered them before parting with a dollar of their hard earned money. The fakir is a man with a smooth tongue, and he knows only too well how to use it.

Parents of this community can not take too much interest in our public schools. Too many of us are content to just feel things rock along, trusting to the teacher to do that which should be done. We do not seem to remember that the teacher appreciates encouragement as well as the pupil, and that both will work truer to form if we extend our cooperation by taking an active interest in school affairs.

Monarchists of Germany yearn mightily for an opportunity to place some one of the old regime on the now vacant throne, but they will hardly succeed. There may be civil strife for a time as in the recent flareup, but the people have had a taste of ruling themselves and are in no mind to let go of the reins. The mailed fist of kaiserdom no longer appeals to them.

A few more weeks and we will be sighing again for the good old days of winter, for that which is temporarily beyond our reach we immediately desire.

He was tall and he was lanky and he was politely inebriated. He pulled solemnly at a dead cigar as he boarded a crowded car at the corner. He leaned limply against the railboard and gazed vacantly out into space over the heads of his fellow passengers. As the car jerked forward he lurched backward and split himself between the rails. The conductor gathered him in and anchored him safely to the window bar. He looked around him with a wrinkled perplexity, and at last he spoke.

"Collision?" he asked of the small man on whose toes he was standing.

"No, sir," was the reply. "Wheel-wheel broke?" was his next query.

"No, sir," answered the little fellow.

"Silence then."

"Explosion?" came the next question.

"No, sir," said the short one.

More silence.

"Smatter, then?" he queried petulantly.

"Nothing sir," meekly returned his victim.

"Nothing 'smatter," he ejaculated with a frown. "If I'd known that I wouldn't got off."

## APPLIES STORY OF PRODIGAL SON

Evangelist Stewart and Salvation Army Revival Says Many Today Long to Get Back Home

RESOLVING COUNTS NOTHING

Psychological Moment in His Life Was When He Turned His Feet and Went Back Home

There was another conversion last night at the revival that is being conducted at the Salvation Army hall by the Evangelist Stewart, who is the state evangelist for that church. Although the crowd was not up to the average, there was keen interest taken in the message.

Last night the text was: "What the Prodigal Son Did." The evangelist declared that hundreds who once knew God, today are far away from home, having turned their backs on Father and home, left the comfortable fireside of a good Christian experience and are out in the world, cold and longing to get back.

The prodigal son might of wept for a year, might have bought his ticket, told his friend, put a notice in the paper, that he was going home and got nowhere," the evangelist said. "The fact is that he said I will, did not get him home. The psychological moment in that man's life was when he turned his feet and went home. Resolving will not take you far."

"Good resolutions unfilled are valueless. He was willing to become a servant. The reason for that was because he saw himself and got his eyes off of others. He found out that he was living within the devil's hog trough, and him, a Jew, feeding swine. The devil gave him the poorest job he could give a Jew. He thought that he would cut a swell when he left home but soon found that there was more swell than swell attached to the devil's jobs."

"When he returned the Father had compassion on him and put a ring on his finger. Yes, we believe in having a ring, a ring in your testimony, a ring in your prayer. That ring was a token of endless love. There are too many people singing on Jordan's stormy banks. I stand and cast a wistful eye, to Cannan's fair and happy land where by possession lies. If they belong to you why don't you cross over tonight?" were the closing words of the evangelist's sermon.

There will be meeting tonight beginning at 7:45 o'clock.

## FAREWELL SERMON BY DR. HENNINGER

Indianapolis Minister Says "Heart-Break" is Necessary For Person to be at Their Best

DR. WALKER HERE TONIGHT.

A large audience gathered at St. Paul's Methodist church last evening to hear the final sermon of the Rev. George S. Henninger who has been assisting in the revival campaign here during the past three weeks. Dr. Henninger was at his best and his sermon on "The Silent Agonies of Life" made a profound im-

pression. The text used was "He was a Man of Sorrows and acquainted with Grief." With many vivid illustrations the speaker pictured the heartaches and agonies of life that many bear bravely and silently and said that a man or woman can never be at their best until they have had a "heart-break."

"The minor note in many a life is caused by bearing a silent agony. Continued prosperity and success are not conducive to vital spirituality," he said.

In closing his sermon the Rev. Mr. Henninger showed that faith in God and trust in Christ are the only effective means of healing broken hearts and enduring the agonies of life. "The world is utterly void of help for those who suffer the crushing experiences of life. It can sympathize, but only Christ can comfort," said the preacher.

The revival meeting this evening will begin at 7:30 with a song service led by the the chorus choir, during which special musical numbers will be given. The sermon will be preached by the Rev. J. M. Walker, D. D., a preacher of unusual power and brilliance Dr. Walker will convene the third quarterly conference business session of the church immediately after the close of the service.

### PREPARATORY SERVICES

Services preparatory to communion will be held this evening and tomorrow evening in the First United Presbyterian church at 7:30 o'clock. The Rev. J. G. C. Webster of College Corner, Ohio, will preach both evenings. All the members and friends of the congregation are invited to attend these services.

THE production of crude oil is, in itself, a highly specialized business.

The Standard Oil Company (Indiana) recognizes this fact and leaves to others the drilling of wells, the operation of pipe lines, and the other activities incident to the production, storage, and transportation of petroleum.

It buys its requirements of crude oil on the open market and pays the market price.

The business which engages the attention of the Standard Oil Company (Indiana) is the manufacture, distribution, and sale of the products of petroleum.

The Company goes into the oil fields and buys the Crude it wants from whoever has it for sale. In this way the Company is able to select with care the raw material it uses, and is not hampered in its endeavor to render greater service by being tempted to use crude which is not exactly suited to its needs.

By devoting all of its time to the business of refining and marketing, the Company is able to fulfill its obligation to the public by supplying petroleum products of the highest known standards—to maintain at all times a uniformity of quality—and to manufacture in such volume and in such variety of forms—as to enable it to sell these products at a low price.

## QUESTION IS WHO RULES TAMPICO

Some Day There Must be a "Show Down" to Establish Jurisdiction Over Oil Fields

CONTROL IS NOT COMPLETE

To Determine Whether Region is to Be Under Authority of Government or Revolutionists

By RALPH H. TURNER.  
(U. P. Staff Correspondent.)

Tampico, Mar. 15. (By Mail).—Some day there must be a "show-down" to establish jurisdiction over the oil fields. It seems inevitable that eventually it must be determined whether the great wealth producing region of Tampico is to be under the unquestioned authority of the recognized government of Mexico—the Carranza government—or whether a band of revolutionists, or cognized government of Mexico—bandits, or whatever you choose to call them, shall continue indefinitely to defy the federal government and exercise a certain measure of control over the richest district of Mexico.

That control is not complete, but it exists sufficiently so that rebel forces today are enabled to exact a toll from American and other foreign oil interests that is generally estimated around \$30,000 a month. That figure is the most reliable obtainable, although higher estimates are frequently heard.

The Battle of the Oil Fields! It has a picturesque ring, but thus far it has never been fought. Whether it ever will be depends, largely, upon the moods of three different elements that today form the eternal political triangle of the Tampico oil region—Venustiano Carranza, Manuel Pelaez and the foreign oil interests.

Manuel Pelaez—"General" Pelaez his followers call him—is today one of the most romantic figures of Mexico, if not the most scrupulous. Lists of Mexico's rebel leaders always include Pelaez. The effect of the Pelaez movement as a political force against the federal government probably is exaggerated. But it is not likely that Pelaez worries greatly over that feature. The fact remains that this rebel chieftain, with a following of soldiers and "moral supporters" that has been known to reach 5,000, continues to roam about the oil district south of Tampico, defying the Carranza government, living largely "off the land", and demanding his pound of flesh—literally to amounts to several pounds—from the oil companies.

Luis Cabrera, Mexican minister of finance, said recently he "hoped the oil companies would see fit to cooperate with the central government and refrain from supporting a rebel leader".

But the oil companies put it differently.

According to their version, they are forced to pay Pelaez for protection; he looks after the safety of their interests, they declare, with a degree of efficiency that Carranza cannot achieve. It is pointed out, moreover, that if tribute were refused, Pelaez could not only withdraw his "protection", but would be in a position to do considerable damage on his own initiative.

That's very well, you have both sides of the story. Then you ask:

"But if Pelaez is such a nuisance, from either point of view, then why doesn't Carranza drive him out, subjugate him, put him to rout?"

## One Look at This New Chalmers Makes You Want It

YOU can't get into an argument about the beauty of this new Chalmers. Everyone admits it. Just one look suffices. Its coach, with large square doors, infinite detail, engaging appointments, superior high finish establishes a precedent.

And when you sink into those new type cushions that tilt deeply you say to yourself: "Here is comfort, indeed."

Then let loose the power stream. Note the silence. You can scarcely hear a sound. Watch for vibration. You detect none—not even the semblance of a fender quivering.

All throbbing is gone. Hot Spot and Ram's-horn make sure this rhythm. They "digest" the gas before it gets inside the engine, and they "feed" each cylinder quickly and evenly.

They make results de luxe in power, and that is why so many now say Chalmers is one of the few great cars of the world.

**Geo. C. Alexander**

## PNEUMONIA

Call a physician; immediately begin "emergency" treatment with—

**VICK'S VAPORUB**  
YOUR BODYGUARD—30¢, 60¢, 1.20

There can't be many answers to that query. Either it can't be done, or Carranza believes there are other jobs more urgent, or the military men serving Carranza in the oil region haven't seen fit to carry out his orders.

Pelaez's authority, just like the location of his troops, is changing, shifting. He has no power, of course, in the city of Tampico proper; neither does he appear to exercise any jurisdiction in the region north of Tampico. In the south his rule is more or less extensive.

Every now and then the Carranza troops march through the Pelaez territory, chase his soldiers into the brush and pass on. Then Pelaez turns up at another spot, or returns to the same old camp ground. It's much like the game of chasing Villa up north. Pelaez, it is declared, has the sympathy of the people in his country and the Carranzistas, being recruited from other parts of the Republic, don't know the district well enough to wage an effective campaign.

But there must be a "show-down" some day. Will it come as The Battle of the Oil Fields? That might be disastrous to foreign oil property. However, if Carranza is master of Mexico, there is one way for him to prove it.

Like Some Grown People.

Two young acquaintances were playing house and an argument arose over something they were to do. Mary said, "Betty, you always want your own way no matter what we are doing" to which Betty replied, "Yes, Mary, I always want my own way, but you always get it."

Build before Planting Time

Before spring planting demands all your time, how about your farm buildings? How about granaries, sheds for machinery, barns? Are you prepared to take care of next fall's crops?

And repairing. Better get that out of the way now. Don't let a leaking roof keep you out of the field next summer.

We carry everything in lumber that you will need, including the handy, "ready to use" wall and ceiling material, Beaver Board. We will be glad to give you estimates on your building and repairing and also to help you plan the work. Phone or call us any time.

HAD A COLD ALL WINTER

The colds that "hang on," the coughs that rack your body and wear you down, the weakening that comes from loss of sleep—these are afflictions from which relief is welcomed as a blessing. Nick J. Whres, Zabi, N. D., writes: "Words cannot express the gratitude I owe Foley's Honey and Tar for the miraculous relief it gave me. Had a cold all winter, but since taking one bottle it has entirely disappeared. I will never be without your remedy if I live to be 100 years old." F. B. Johnson. (Adv.) 6

HOME MADE RECIPE CATARRH AND COLDS

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arecine and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you.

Seven a day for seven days—Wonderful results.

## PLANS COMPLETED FOR NEW SERVICE

Co-operating Live Stock Reporting  
Service Will Prove Great Aid  
For Local Farmers

A DAILY MARKET SUPPLY

Each County Will Have Township  
Organizations and Meetings Are  
Called For March 31

Indianapolis, Ind., Mar. 25.—All plans have been completed for a co-operative live stock reporting service by the Indiana Federation of Farmers' Associations working in conjunction with the United States Department of Agriculture, which, if successful will be a great aid in the marketing of live stock in this state and tend to steady the market along with a more even supply from day to day. The project calls for a listing of all cattle, swine and sheep from each township in the state along with data showing the number being used for brood purposes, the approximate date the stock will be ready for the market and other information calculated to give the reporting service an exact line on the available supply.

In addition to tables which will be sent to the various county units of the Indiana Federation of Farmers' Associations and turned over to the township units every three months to be filled out, a ten day service is to be tabulated at the headquarters of the farmers in this city. Lewis Taylor, general secretary, said that the quarterly reports will show when the stock will be ready for the slaughter houses and that the farmers will be advised from time to time concerning conditions so that they can keep an even flow of live stock on the market and thereby do much in the way of obtaining steady prices.

"A meeting in every township of the state has been called for March 31," said Mr. Taylor, "and at that time the farmers will be called upon to fill out the blanks we have prepared. The working program of the plan will be explained and we have high hopes that the system will prove of immense benefit to the producers. Under the present conditions we find the market glutted one week and the following week a scarcity. If we tabulate this supply we will be in a position to advise the producers so that a more steady flow will come to the yards. Officers of the federation are optimistic of the success of the venture. Many other states will watch the movement in Indiana, the first in the country to try out the plan."

## INDIANA MEMBERS OFTEN CALLED UPON

Senators Watson and New and Representatives, Gladly Aid Former Soldiers About Insurance

WATSON HELPED ONE MAN

Washington, Mar. 25.—Senators Watson and New and the thirteen Indiana members of the House of Representatives perform some service for scores of Indiana soldiers every week. They gladly do all they can to straighten out allotment and allowance and insurance tangles in the War Risk Bureau and serve them in many other ways. Appreciation of this personal service is voiced in letters they receive from many of the ex-soldiers.

Only this week Senator Watson called on the War Risk Bureau to give special attention to the case of Russell H. Sparks, of Indianapolis, a member of the famous Indiana Rainbow regiment. He is suffering from a physical disability and was entitled to back compensation under the new Sweet act (a new measure adopted by the present Congress) amounting to \$755.95. He has now received his check.

swine and one for sheep to be made out quarterly, based on the following number on farm, births during quarter, bought on farm during quarter, sold off farm during quarter, slaughtered, died, females on hand for breeding, stock being prepared for market, number on feed at end of quarter, number that will be finished during next ninety days, approximate date of finishing, and approximate average weight per head at time of finishing.

Word has been received by Secretary Taylor from several members of the executive committee of the American Farm Bureau Federation, to which the Indiana farmers are affiliated, stating that the newly formed national organization is getting well under way. J. R. Howard, of Iowa, national president, with a coterie of able assistants will soon start an active campaign in many lines to promote the general welfare of the agriculturists of the nation.

Relics of Long Ago.

A clothes chest of King Charles I. bearing the initials "C.R." and crown realized \$240 at Rushbrooke hall, near Bury St. Edmunds, at a sale of the contents of this Elizabethan mansion. Two cambric day shirts and a nightcap worn by Charles I realized \$52. A silk brocade suit, consisting of coat, waistcoat, with sleeves, and a pair of knee-breeches, also worn by King Charles, brought \$185. A pair of silk stockings of the same period, with colored zigzag stripes, made \$23, and a fester's coat of painted leather, \$35.

TOWN IS TIRED OF NAME

East Moline, Ill., March 25.—East Moline is tired of being East Moline. It wants a new name.

Confusion in delivery of mail, telegrams and freight and express shipments is blamed on the similarity of the name to its sister city, Moline, and a distinct identity is demanded.

Some of the citizens have suggested "Deere" as the new name, in honor of John Deere, pioneer implement manufacturer, whose plants are located here.

## "Cleveland Six"

This car will dominate the light car field. Cleveland owners are enthusiastic about its ease of driving. "It handles like a feather; "You can drive it with one finger;" It just almost steers itself.

These and hundreds of other phrases of praise come from enthusiastic Cleveland owners.

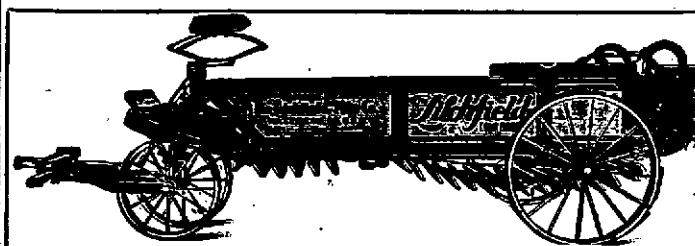

Our man has just returned from the factory with this "little wonder" car. The demand for this car is very great and if you expect to purchase a light-six this spring or summer, place your order now in order to get a delivery when you want it.

## Rheumatism Leaves You Forever.

Deep Seated Uric Acid Deposits Are  
Dissolved and the Rheumatic  
Poison Starts to Leave the System  
Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenru, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenru relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James M. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed all druggists to guarantee it in every instance.—(Adv.)
